Assaf Dori

SUMMARY

Dedicated IT, Security and Operations Engineer with a proven track record spanning 3 years. Proficient in network administration, system troubleshooting, and security maintenance, with a robust background in cloud infrastructure, virtualization, and basic scripting languages. Aiming to transition into a dynamic DevOps/SRE role, leveraging skills in optimizing IT and Security operations to deliver innovative solutions and foster business growth. Committed to staying at the forefront of technology trends and continuous self-improvement.

EXPERIENCE

Cyber Security Specialist Bulwarx

January 2024 - Present

- Deployed and configured security applications, enhancing cybersecurity for diverse clients. Utilized extensive knowledge of infrastructure dependencies for seamless integration.
- $\cdot \ \ \text{Demonstrated expertise in networking protocols, contributing to the implementation of security solutions.}$
- · Served as main point of contact for troubleshooting of complex systems and issues of customer environments.
- · Utilized REST APIs to ensure smooth data exchange and interoperability, contributing to seamless integration of security applications.
- · Implemented cryptographic solutions to fortify data protection, achieving enhanced confidentiality and integrity through encryption and digital signatures.
- · Contributed to the development and enforcement of security policies, ensuring compliance with industry standards and regulations. Achieved a strengthened security posture for clients through the implementation of effective security policies.
- · Provided technical support during application deployment, collaborating with client teams to address concerns and optimize performance.

Technical Operations Engineer

January 2022 - July 2023

- · Supported the successful transition of on-prem VMWare servers migration to GCP, achieving seamless integration and optimal performance. Provided complex networking, architecture, and security solutions during the migration, ensuring a secure and efficient cloud environment.
- · Led and managed a remote team of 5 engineers, overseeing the support of multiple technical projects. Achieved project milestones and maintained high team efficiency through effective communication and collaboration.
- · Demonstrated expertise in GCP/AWS services, networking, and security. Implemented robust cloud solutions, optimizing infrastructure and enhancing overall system resilience.
- Responded to and mitigated cloud security alerts across AWS & GCP, ensuring a proactive and secure environment. Implemented strategies to enhance security posture and minimize vulnerabilities across multiple cloud platforms.
- Exhibited a rapid learning curve for new products and technologies, staying abreast of industry advancements. Achieved proficiency in implementing cuttingedge solutions through continuous learning and adaptation.
- Provided technical information and solutions to employees across all departments, tailoring explanations based on their technical abilities. Enhanced cross-departmental collaboration by simplifying complex technical concepts, fostering better understanding and adoption of technology.

IT Engineer

Siemplify April 2021 - January 2022

- · Enhanced server and network security by implementing proactive monitoring and regular maintenance, ensuring optimal performance and resilience.
- · Ensured the high availability and efficiency of a VMWare vSphere cluster through maintenance and timely application of patches.
- · Streamlined the onboarding and offboarding processes, ensuring a smooth transition and minimizing friction.
- · Achieved ISO 27001, SOC 2, and FedRAMP certifications, demonstrating commitment to industry-leading security standards.
- · Successfully administered an Active Directory domain and orchestrated a seamless migration to Azure Active Directory, enhancing scalability and cloud integration.
- · Demonstrated expertise in internet protocols, including DNS, DHCP, HTTP, and SSL, contributing to a robust and secure network infrastructure.
- · Applied scripting knowledge in Bash and Powershell to automate routine tasks and reduce manual workload.
- \cdot Enhanced endpoint security by effectively securing and responding to alerts using MS Defender.
- · Implemented comprehensive security measures, including Endpoint Detection and Response (EDR) and Group Policy Objects (GPO).
- Spearheaded the successful implementation of Mobile Device Management (MDM) and Endpoint Detection and Response (EDR) applications, fortifying security measures across all endpoints and critical servers.
- Orchestrated and led a comprehensive security awareness program, ensuring all employees were well-informed and vigilant about cybersecurity best practices, contributing to a culture of security within the organization.

EDUCATION

DevOps Professional

Technion - Israel Institute of Technology ⋅ 2025

· Gained expertise in Docker, Kubernetes, Ansible, GitOps, Jenkins, Terraform, Elasticsearch, Webservers & AWS.

Security Expert Program

Technion – Israel Institute of Technology • 2022

· Gained expertise MCSA, Active Directory, CCNA, CCSA, LPI, Security Operations, Penetration Testing
